## From the Director's Desk :

It is my immense pleasure to introduce Arcreation Design Pvt. Ltd. (ADPL), as one of the leading architectural solution with remarkable executions since more than a decade. Nowadays as modern factories are becoming larger with complex environments, ADPL is geared up with latest technology and architectural concepts to ensure reliability.

Today's industries deal with various issues with respect to safety, reliability and environmental performance along with different critical process of plants. Taking one step ahead beyond the architectural solutions, we go even deeper to the specific industrial requirements. Our highly experienced and versatile team implements proven and innovative solutions for our clients. We offer our clients sustainable growth, stability, highest safety and excellent commitment.

So whatever you build, rebuild, repair or protect with our technical consultancy we are able to offer you specific solutions for all your industrial needs.

**Biswajit Jana**

Director - Arcreation Design Pvt. Ltd.

## Introduction :

*Arcreation Design Private Limited (ADPL) is a growing team of new-generation architects and engineers with an innovative vision. ADPL is a consultancy firm devoted to the society for responsible and respectful architecture & building services. We are inclined towards crafting an enhanced built environment by means of full scale building design and construction engineering services.*

*ADPL takes an extra effort to create and maintain long-term 'relationship' with every client. The team believes in offering each client innovative and unique solutions with optimized financial investment within the stipulated timeline to keep them satisfied in all respect.*

*ARCREATION DESIGN PRIVATE LIMITED has been formed merging ARCREATION (a Kolkata based well established architecture firm) and BUILD MASTERS' FORUM (a Haldia based renowned engineering firm) in 2012. Arcreation Design Private Limited is presently headed by 3 directors – Ar. Rosi Sarkar, Ar. Pabitra Ghosh and Ar. Biswajit Jana. We have two offices, one in Kolkata and another one in Haldia.*

*ARCREATION was established in early 2008 with two architects – Mrs. Rosi Sarkar (M.Arch) and Mr. Pabitra Ghosh (M.Arch). With years of experience in the fields of architecture, landscape architecture, interior design and urban design, ARCREATION yearned to grow into a bigger company. Mr. Biswajit Jana, (B. Arch), embarked on professional practice in the name of BUILD MASTERS' FORUM based in Haldia in early 2009. Soon the firm received numerous involvements in various fields.*

*It was the time to amalgamate, to be the part of a bigger team, and hence the idea generated for merging of firms into a bigger entity. Envisioning a superior platform for multi layered practice on different fields of Industrial design, architecture, building engineering, interior, and landscape architecture the foundation of ARCREATION DESIGN PRIVATE LIMITED was laid in early 2012 after merging the two firms.*

*Creating innovative and practical design, our experts ensure that every project meets the expectations of clients. Combining local market knowledge with technical expertise, our structural engineers approach a creative, sustainable, cost effective and holistic design, which from the outset, embrace low-carbon and economic operational performance. Our professionals always strive to deliver visionary works that reduce natural resources and minimize wastage. From creation to completion and beyond, we help clients to reach the optimum potential of every project.*

## Services :

### We provide specialized services in the fields of:

#### Industrial Planning:

We guide our clients to take right decisions through proper planning in various aspects like, site planning, physical layout of plant facilities, structural elements. We also advise our clients with regard to safety, legal, working conditions, operational efficiency, economic consideration, productivity and profitability of the industrial process. With ages of experience, our team of experts uses latest technology to come up with the finest planning using calculated values. We ensure to deliver the planning of every project as per our client's requirements well within their budget.

#### Architectural Design:

We at ADPL strongly believe in technical considerations while designing a project. Our designs are developed considering the factors of ergonomics, climatology, wind direction, natural light and various other technical aspects. As an industrial consultant, we prioritize functionality of different spaces and worker's safety on top of everything. Our focus is to offer the best output to our clients with respect to the site, by providing aesthetically pleasant design.

#### Structural Design:

Our in-house experienced structural designers follow the codal provision while designing the structure, considering wind load and seismic load. The designs are done after simulation modeling to avoid any kind of failure in the structure. Moreover, to be more precautionous in critical design we take advice from experienced external consultants.

#### Services & Utility Design:

Services and Utilities play a vital role in our project system. In this sector we deal with the services of fire, fireline, LPG, Compressed airline, different types of waterlines, Cooling Tower, Heat exchangers and various other services.

#### Statutory Approvals:

Along with planning and designing, we also take responsibility for approvals from Land Revenue, Municipality, Zilla Parishad, Directorate of Factories, Municipal Engineering Department, WB Fire & Emergency Services, Pollution Control Board, WBIDC and other Governing authorities.

#### Interior Design:

Our aim is to make interior spaces of industrial buildings a refreshed & approachable environment. We do interior designs of Office Buildings, Workstations, Laboratories and any other spaces inside factories customized as per client's requirement.

#### Project Management Consultancy (PMC):

As a Project Management Consultant, we care to mitigate every project within time and budget of the client. We help you to make work schedule with help of informed decisions throughout the lifecycle of the project from planning stage to completion.
